

PIP Item: 3A.1 Enhance community partnerships for prevention services through the Community Collaborations for Children (CCC) regional networks.

Action Step 3A.1.2: Meet with Community partners at a regional level to evaluate service gaps and strategize solutions.

Action Step 3A.1.3: Facilitate training/education for community partners by increasing the use of child welfare data at the regional CCC meetings.

This item is 3rd quarter and ongoing. During the last quarter several regions presented child welfare data at their local CCC meetings. For the purposes of this reporting period the following CCC regions will be highlighted: Lincoln Trail (Salt River Trail), Kentucky River (Eastern Mountain), Jefferson and Pennyrite (The Lakes) (parts 5-8).

We have selected several action plans that were developed by the regional networks to address the identified service gaps. For the purposes of this reporting period the following regions will be highlighted: Northern Bluegrass, Southern Bluegrass and Eastern Mountain (parts 2-4).

Throughout the course of the PIP we will continue to highlight the various regions and their unique approach to engaging community partners in child abuse prevention and service provision.
